**RESPONSE TO RESTRICTION REQUIREMENT**

**and**

**AMENDMENT C**

Dear Sir:

This paper is responsive to the Restriction Requirement of May 4, 2004. Claims 1-21 were presented for examination. The Examiner has set forth a Restriction Requirement wherein claims 1-9 and 19-21 are cited as being drawn to a method of annotating a document of a document management system classified in class 715, subclass 524. Claims 10-18 are argued to be drawn to a method of annotating a document in a document management system capable of dynamically changing a system configuration of the document classified in class

709, subclass 220.

Applicant respectfully traverses the Examiner's restriction requirement and reserves the right to reply with additional claims. Applicant elects claims 1-9 and 19-21 for further examination.

Additional dependent claims 22-24 have also been added for examination.

**Amendments to the Claims** are reflected in the listing of claims which begins on page 3 of this paper.
